Hi there,

We the home owners of [REDACTED] in King City, strongly oppose the proposed development plan for the Doctor Lane neighbourhood concept plan due to its potential negative impacts on our community. Firstly, the increase in traffic congestion and noise pollution could disrupt the peaceful environment we currently enjoy, making our streets less safe for pedestrians and children.

This project does not align with the character of our community, and I believe it could adversely affect property values, making our neighborhood less desirable. Additionally, we must ensure that any development fosters a sense of community and inclusivity, rather than creating divides.

We urge decision-makers to reconsider this plan and explore alternatives that prioritize the needs of existing residents while still allowing for growth.
