To Whom it may Concern:

I just can not believe our village will be forever changed at the whim of very few people who do not live here. It's so easy to come in and buy a property with dollar signs in your eyes and not listen to the residents that actually live here day to day. The same can be said of the planning department who do not live here and appoint various so called experts to come in for a few hours here and there and report back - no problems with parking - no traffic issues on Main Street - the Dufferin Marsh won't be impacted. etc.

I live here and have worked at the Cashway/Rona over 20 years (since retired) and were asked constantly by the Chestnut Manor to rent or park for free at our parking lot for years. The condo building at the west end of Church Street have a deal with St. Patrick's Church for extra parking.

So \$\$\$ in lieu will benefit WHO? Winter parking is restricted in town, now what?

Open your eyes please - King City sucks, Kleinburg has been ruined, why does Schomberg have to follow suit?

I have no objection to a sensible 2 to 3 storey building that will provide housing and still be an attractive and unobstructive addition to our town.

The Gardhouse Family has been in this area since the 1950's as Dairy Farmers, Construction company, Reverend and general supporters of our community. We have never spoken against any changes to our area until now.
